Land Habitats

Please describe each:

1. Desert- hot and dry.
2. Arctic- Very cold and near the North Pole.
3. Rain Forest- Warm and rains almost everyday.
4. Woodland Forest- gets enough rain and sunlight for trees to grow well.
5. Migrate- to move to warmer places-like birds fly south for the winter.
6. Habitat- A place where plants and animals can meet their needs.

Name one animal in each habitat:

Desert- rattlesnake or lizard

Arctic- Arctic Fox, Polar Bear or Caribou

Woodland Forest- Raccoon, foxes or Woodpecker

Rain Forest- Tree Frog, Monkey, or Parrot.
